COMMUNITY HOMELESSNESS REPORT SUMMARY

Kingston, Ontario
2019-2020 2020-2021

COORDINATED ACCESS AND HOMELESSNESS MANAGEMENT INFORMATION SYSTEM (HMIS) SELF-ASSESSMENT

SUMMARY

The table below provides a summary of the work the community has done so far to implement Reaching Home's minimum requirements for Coordinated Access and an HMIS.
How many of the Reaching Home minimum requirements has the community:

Met	Started	Not yet started
15	3	0

Are there particular efforts and/or issues that you would like to highlight for this reporting period related to your community's work to achieve the Reaching Home minimum requirements? In particular, please describe your community's efforts to set-up or improve the Coordinated Access governance structure, including processes to ensure that policies and protocols, as approved by the governance group(s), are being implemented across the system as intended to achieve desired results.

All city funded housing and homelessness programs have data sharing agreements and report using HIFIS, as well as having agreements in place for the By Name List (BNL). We have begun to onboard Reaching Home funded agencies and will continue this work. In September 2020, our community was recognized as having acheived a quality BNL, being the 20th community in Canada to do so. This means that we have confirmed a 10/10 score on the BNL Scorecard with the Canadian Alliance to End Homelessness (CAEH). More importantly, it means that we have included at least 90% of the homeless population on our BNL, and maintained quality, reliable data for 3 consecutive months. See timelines below:

September 2018 - Joined Built for Zero Canada
November 2018 - Began sharing chronic homeless data with Built for Zero Canada (BFZ)
August 2020 - Established chronic baseline
September 2020 - Achieved Chronic Quality By-Name List
October 2020 - Established veteran baseline
February 2021 - Achieved Veteran Quality By-Name List
